MOBILE FREEDOM. INCLUDING FOR YOUR BICYCLES.

The freedom to get to any place at any time: as natural for a van as a place to sleep. Thanks to TRIGO-VAN, you can now enjoy this freedom even more if you have bicycles with you. Instead of time-consuming blocking of access to the interior, with TRIGO-VAN they are out of the way in no time. Even loaded with three heavy e-bicycles, TRIGO-VAN leaves the way open to the internal compartment. Wherever you may be heading next time – taking the bicycles with you has never been more comfortable.

AT A GLANCE

I Innovative operating concept

- I Ergonomic design
- I Effortless swivelling of the loaded carrier
- I Light bracket with automatic folding function
- I Locks in place automatically: This is ensured by the newly developed locking mechanism
- I Pivot function with stop guard for the right-hand door
- I Free access to the rear doors at all times, even when loaded, thanks to 100-degree opening angle
- I Foldable carrier including fixing option

I Tested quality

- I Designed, developed and tested according to industrial quality standards
- I Made from high quality materials
- I Long-standing specialist expertise in the field of load-carriers
- I Produced in Germany

I 80 kg payload for up to 3 e-bikes, bicycles or fat bikes

I Weight approx. 50 kg

I Suitable for Fiat, Peugeot and Citroën vans

I Optional or existing towbar can be used when the carrier is folded up

Towbar can be used without any restriction
