# DESIGN MEETS COMFORT

UPGRADE FOR THE CLASSICS  
**VELO / VARIO / LIGERO**

# VELO

MAXIMUM COMFORT - MODERN DESIGN

## LIGHTNESS COMBINED WITH STABILITY

Despite its lightweight design, the VELO is very stable. The high payload of max. 80 kg is sufficient to safely transport up to 3 bicycles or e-bikes safely.

Experience maximum comfort, lightness, quality and modern design with the VELO bike carrier.

## MORE COMFORT THROUGH SIMPLE OPERATION

The transport platform of the VELO and VARIO can be folded up effortlessly. This saves space when not in use. Thanks to the new folding mechanism, the light carrier folds up automatically.

Max. 1 Tricycle

# VARIO

COMPACT, FOLDABLE AND VARIABLE

## FLEXIBLE & FUNCTIONAL

The VARIO - the perfect combination of modern design, simple operation and maximum flexibility. It impresses with its variable loading depth, which can be extended from 620 mm to up to 800 mm, thus offering even more options. In addition to the tried and tested set-up kits for bicycles and scooters, special set-up kits for fat bikes and tricycles are also available.

Ideal for all those who value quality and comfort.

## PERFECTLY SECURED EASY TO LOAD

Ratchet quick-release fasteners on arms and bike rails secure your bicycles by hand turn round. The low loading height and the optionally available drive-on ramps make loading and unloading is child's play. Ideal for heavy e-bikes, fat bikes or scooters.

Scooter rail with hole pattern to customise the wheel brackets to your scooter. (VARIO / LIGERO)

Access ramp for bicycles and e-bikes.

All carrier systems are equipped with practical ratchet quick-release fasteners.

# LIGERO

THE CLASSIC IN THE NEXT GENERATION

## VERSATILE LIGHTWEIGHT WITH HIGH PAYLOAD

The latest generation of the LIGERO replaces the tried and tested LIGERO III, combining a tare weight that is approx. 5 kg lighter with an impressive payload of 150 kg.

The LIGERO is the ideal choice for anyone who values functionality, design, flexibility and quality.

## MAXIMUM FLEXIBILITY

An outstanding feature of the LIGERO is its telescoping capability from 600 to 930 mm as standard. This means that the load carrier can be flexibly adapted to your needs and offers even more application options.
